

LOCAL INTERNET SOURCING

DIY vs GNX

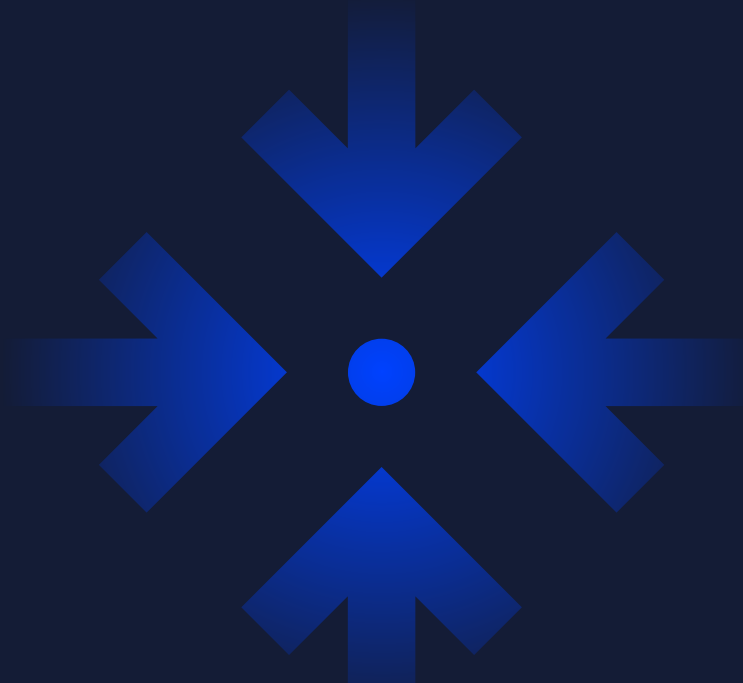

Same goal, very different journeys

GNX Straightforward connectivity

Sourcing in-house (DIY)

One person, a global task

Sourcing with GNX

One platform, an entire team behind

1

Search & shortlist ISPs

No benchmarks - comparison from scratch.

DAYS

2

Chase quotes

Different formats, currencies, terminology.

WEEKS

3

Validate claims

On-net? Real diversity? Uncontended?

EASY TO MISS

4

Negotiate local contracts

Local terms, local laws, first-order leverage.

WEEKS

5

Onboard each vendor

Legal, security, finance... per supplier.

MONTHS

6

Place the order

Fingers crossed for no surprise requirements.

POTENTIAL DELAYS

7

Chase provisioning

Time-consuming project management.

ONGOING

1

Enter sites in GNX+

Comparable quotes from competing ISPs.

INSTANT

2

Pick your option

Clear data, local insights, vetted partners.

INSTANT

3

Local checks? On us

Established ISP relations. Known local rules.

NEVER

4

Sign one contract

One vendor - GNX - to onboard. That's all.

ONCE

5

Global provisioning

Hands-on provisioning team for all your global sites.

WEEKS

The time you get back

Because GNX already knows the local vendor,
the quoted lead time can be cut in half.

One contract • One invoice • one 24/7 NOC
3,000+ ISPs • 190+ countries • All visible via GNX+

...x every country
you operate in

"Based on real experience, we can foresee
issues a first-time buyer cannot be aware of."

- Eda Guven, Chief Procurement Officer at GNX

190+

Countries

3,000+

Local ISPs

24/7

Global NOC

200+

Global customer

Let's begin your network transformation

Hi, we are GNX. We are a global provider of internet access and private
connectivity services, here to transform how enterprises navigate global networks,
making them transparent and straightforward.
